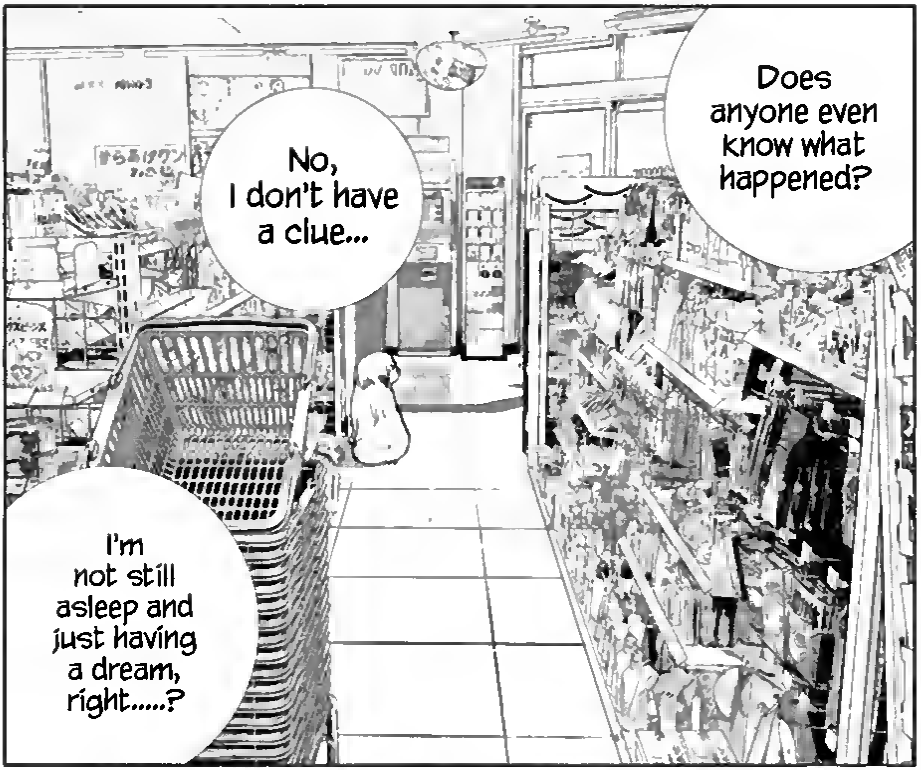
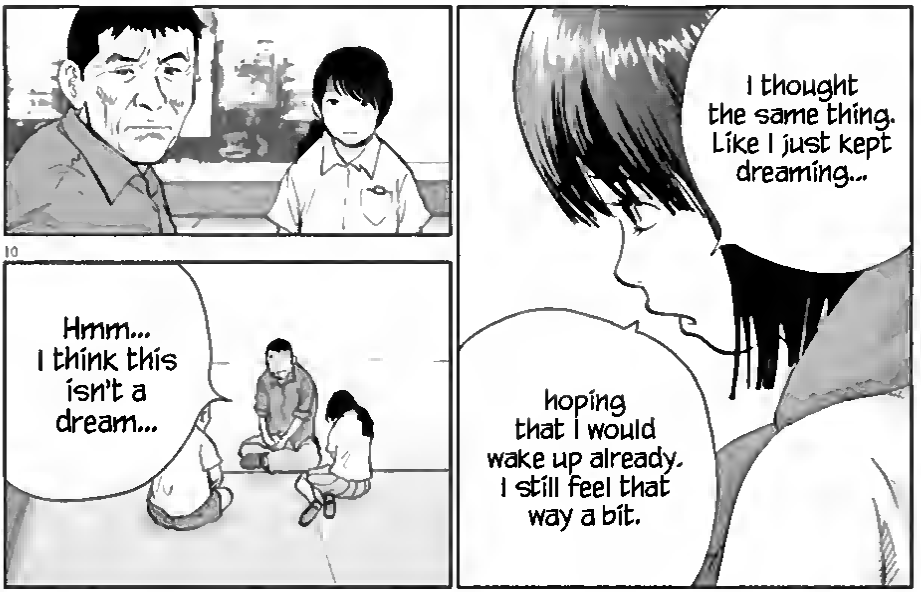
It happened while I was sleeping...
I was on my way to morning practice when all of the sudden I felt a jolt...
I guess it didn't happen to everyone while they were asleep, then.



Does anyone even know what happened?
No, I don't have a clue...
I'm not still asleep and just having a dream, right.....?



I thought the same thing. Like I just kept dreaming...
hoping that I would wake up already. I still feel that way a bit.
Hmm... I think this isn't a dream...

I want to go back home, but with the way that it is out there...
We're just waiting for help here...
Ah, I watched a video earlier and there was a bunch of the Self Defense Force soldiers in it!
